Sunday, Jan. 20—6 P. M.

The stock market closed yesterday with a strong upward tendency. The abundance of money has given great confidence to holders, and buyers are daily increasing in numbers. The tendency of prices is decidedly upward. All the leading stocks were in demand at the close yesterday, and speculators have become perfectly indifferent to the absurd political rumors which almost daily emanate from Washington. One half or more of the reports regarding our foreign relations or greate in the imagination of some outside political demagogue. egination of some outside political demagogue, worth no more than all the other pot house gossip so picuty at Washington and other political centres. For some weeks past Wall street has been at times exnow lost their effect, and the bears will be forced to invent some new way of getting up a panic. The tendency market is towards greater case. An occasion shall have, in a lew months, an immense amount of capi-tal seeking investment, and the most prominent stocks in the market must be in demand at greatly augmented

tation of specie. Breadstuffs continue to go forward actively, and form the bulk of the aggregate shipments.
We are shipping breadstuffs and provisions to all parts of
the world. The importation of general merchandise and
of dry goods last week was not large for the season. Compared with the corresponding period last year, our importations during the past three weeks have been large, but the position of the consuming classes throughout the country is now very different from what it was then. In January, 1855, every interest in the country was completely prostrated, and no one knew whether he would be able to weather the storm or not. Now every one is comparatively rich, and able to consume largely all the necessaries and many of the luxuries of life.

We annex tables giving the details of last week's ex-
